Dear Parents/Guardians and Staff,

This afternoon, November 11, 2020, the Bethlehem Area Vocational-Technical School was notified of a positive case of coronavirus (COVID-19) in our building. This individual was last in our school on October 29, 2020.

The administration, in conjunction with our district partners and local health officials, has determined that there is no need to close our building at this time. The classrooms and spaces used by the individual have been cleaned and disinfected according to CDC guidelines.

Staff members and students who may have come into close contact (any individual within 6 feet of an infected individual for at least 15 minutes) with the individual will be directly contacted by the Department of Health and/or BAVTS Administration with instructions to self-quarantine.
